EXPERIENCE

Founder — Mentora.ai (AI Learning Platform) Nov 2025 – Present
250+ users | Solo-built & deployed | Positive investor feedback from Act Grants

- Built and launched an AI learning platform solo, growing to 250+ users across programming and professional-skills tracks.
- Cut a technically infeasible video-explanation feature after testing showed no LLM could generate lectures beyond 10-15 seconds; redirected effort into the core text experience.
- Redesigned AI response format into structured micro-chunks, reducing bounce rate from 75% to 45% across an initial 50-user test group.
- Wrote a full PRD for the redesign and instrumented the platform with Google Analytics for ongoing data-informed decisions.
- Pitched to Act Grants (VC) and received actionable go-to-market feedback, now driving a campus-traction strategy.

Business Development Intern — Alloinnoware Sep 2025

- Conducted competitor and vendor research, supporting early-stage market analysis.

Web Development Intern — KI Systems and Services July 2023

- Built a fully functional full-stack website independently, covering frontend, backend, and database integration.

ADDITIONAL LEADERSHIP EXPERIENCE

Operations Lead — Shrimant Garjana Vadya Pathak 2023 – Present

- Turned around a 150-200 member group post-COVID near-shutdown — new location, rebuilt team, 1-5L budget — culminating in a performance at Shree Kesariwada Ganpati.

Founder — Seasonal Mango Business (D2C) Apr 2024 – Present (Seasonal)

- Ran end-to-end D2C operations — sourcing, pricing, delivery — building hands-on unit-economics experience.

Co-Founder — Social Workers Pune Feb 2024 – Present

- Co-led 12+ community events, coordinating 50+ volunteers.
